The City of Longview, in conjunction with City of Kilgore [2] and Longview Economic Development Corporation [3], presented a three-day geographic extravaganza this year by taking GIS Day 2009 on the road. Almost 500 local school students at three different campuses (Gladewater Elementary, Pine Tree Intermediate, and Kilgore Intermediate) were treated to a visually dazzling presentation that incorporated a stunning display of 3-D images, colorful computerized graphics, and various informative film shorts. At the end of each presentation, the children were encouraged to ask questions, and they excitedly did so while showing unbridled enthusiasm for all things geographic. Each student was then presented with a GIS gift package that included a pencil, decal, and button. All in all, GIS Day 2009 was a rewarding experience for all involved! – Roger Moser, Jr., City of Longview GIS Data Specialist
